## Feedback from Past Courses

"My assessment of the CP3P FOUNDATION is unbeatable and will undoubtedly help my professional development, it is very rich in content and very useful when combining a theoretical approach with countless practical examples. The classes have been very participative. The preparation and the organization have been excellent."

- A.T - Macedonia

"A program that goes beyond individual professionalization in PPP's. Its approach and structure should be used to develop practices and a common language that would contribute to laying the foundations of actions necessary to guarantee, one, the quality and transparency of PPPs and, two, interaction and understanding at the global level between the parties involved. Very satisfied to have participated!"

- C.S - Uzbekistan

"The course has fulfilled my expectations, I believe there is a great balance between the duration and the content, as well as the correct preparation of the programme and the real examples shown during discussion. Particularly, this last thing has been of great interest due to Andres' extensive experience."
